The Street Play sensitized the students on the significance of safe and cautious driving. Through the performance and presentation, the students were made aware of the hazards of drunken driving, helmetless driving, red-light jumping etc. It was highlighted that life is very important, and most of the times ego, vanity, misuse of mobiles, show-off and over-confidence becomes the cause of accident. It was further stressed that the rate of road-accidents has gone higher in India. It is noteworthy that if one avoids high-speed driving and carelessness on roads, and follow traffic rules most of the accidents are avoidable. The students were highly motivated by the actors of the play and placards were distributed to the audience consisting of both teachers and students who were present in great numbers.
