# BEST PRACTICES ADOPTED

- **The department makes sure that every aspect to be covered is related to field knowledge and practices.**
- Field survey trips are organised every year to cover a part of the curriculum for B.A.III students.
- The department organises trips and tours related to geographical sites and disaster management topics
- The students are taken every year to various institutes and departments related to geographical aspects ( Metrological station, Survey Department, Snow and Avalanche Study Centre)
- Department uses smart classrooms and you tube for showing animated diagrams and pictures to explain the topics practically.
- **G.P.S global positioning system:**
- Surveying: used for absolute locations to make maps and determine property boundaries during field surveys.
- GPS tours: location determines what content to display; for instance, information about an approaching point of interest.
- **Handycam** – To take videos and still pictures during field surveys related to Geographical aspects, disaster management issues and mock drills.
