4. Technology ki Pathshala

The PG department of Bachelor of Computer Applications and PG department of Commerce of PGGCG sector 11 Chandigarh, visited Integrated Command and Control Center (ICCC) in sector 17 Chandigarh on 22nd March, 2023. Dr Naveen Pandhi and Ms Harpreet Kaur accompanied the students. The ICCC is a command-and-control center, also known as a "situation room," where monitoring, controlling, and commanding operations are conducted. One of the primary objectives of Chandigarh's smart city mission is to enhance safety and security, improve the efficiency of municipal services, and promote a better quality of life for residents. During the visit, Mr. Ashish Sharma, an information and communication technology expert at the ICCC, educated the students about the development of Chandigarh as a smart city. Around 40 students have attended "Technology ki Pathshala" and were shown how the ICCC provides safety and security to citizens and how the command center improves the efficiency of municipal services. They also learned about the benefits of placing more than 2500 cameras across 300 different locations throughout the city. The purpose of the activity was to raise awareness among the younger generation about the role of data and technology in making the city better and safer. The students had an interactive and enjoyable session, actively participating and learning about the city's development as a smart city.
