Hostel facility, where needed, is provided to these students, to facilitate their academic pursuance through interaction with fellow residents. The college, thus caters not only to the national socio- cultural diversity but is also a reflection of the world being a global village.

OUR FOREIGN ALUMNAE

Marjan Mateen

“PGGCG-11 shaped my life in so many positive ways. Felt home while away from home. Why? Because of some of the amazing and cool teachers and of course my classmates and batch mates who have remained friends and guide thus far. One critical take-away from academic life in college: the system should not require students to write very long answers to a single question. Our fingers hurt so much. Please make the best of your time in the college in making amazing friends with your classmates and teachers. Make friends, build your network, and do not cram! Learn it by heart and you are good to go.”

NATIONAL EDUCATION POLICY (NEP)-2020

National Education Policy 2020 envisions a complete overhaul and re-energising of the higher education system to overcome these challenges and thereby deliver high-quality higher education, with equity and inclusion.

- The policy lays particular emphasis on the development of the creative potential of each individual. It is based on the principle that education must develop not only cognitive capacities - both the 'foundational capacities' of literacy and numeracy and 'higher-order' cognitive capacities, such as critical thinking and problem solving – but also social, ethical, and emotional capacities and dispositions.
- Higher education plays an extremely important role in promoting human as well as societal wellbeing and in developing India as envisioned in its Constitution - a democratic, just, socially conscious, cultured, and humane nation upholding liberty, equality, fraternity, and justice for all. Higher education significantly contributes towards sustainable livelihoods and economic development of the nation. As India moves towards becoming a knowledge economy and society, more and more young Indians are likely to aspire for higher education.
- To contribute to the realization of these aspirations, PGGCG-11 is committed to the philosophy of NEP 2020 and aims at fulfilling the mandate by imparting quality higher education to enable personal accomplishment and enlightenment, constructive public engagement, and productive contribution to the society. The institution will prepare students for more meaningful and satisfying lives and work roles and enable economic independence.
- The college has well-equipped infrastructure, qualified faculty, state of the art scientific set-up, and sumptuous academic repository complemented by sports facilities, green environs and numerous opportunities for beyond the classroom and holistic development of the students. The implementation of NEP 2020 will polish the learners as assets for the nation.
